

KACHEMAK BAY SCIENCE CONFERENCE 2024

Cultivating Knowledge for Healthy Ecosystems & Communities

Homer, Alaska
March 17-20, 2024

CALL FOR PRESENTATIONS & POSTERS

The Kachemak Bay Science Conference is pleased to announce the Call for Presentations and Posters for its 12th conference. The event will be held March 17-20, 2024 in Homer, Alaska. This conference will encompass the coasts and marine waters of Kachemak Bay and Lower Cook Inlet.

Conference focus: The Kachemak Bay Science Conference is a forum for presenting scientific and traditional ecological knowledge relevant to Kachemak Bay and its surrounding coasts and waters in order to foster an informed and engaged community of environmental researchers, educators, and decision-makers. The goal of this conference is to provide new information and syntheses to the broad community interested in and working on related issues.

The conference program will feature oral and poster presentations that provide scientific information and ideas relevant to the topic sessions. The conference focus this year is *Cultivating Knowledge for Healthy Ecosystems and Communities*. All presentations will be accepted around terrestrial, nearshore, and marine ecosystems.

The Kachemak Bay Science Conference committee is seeking oral presentations (15 minute & 5 minute), posters, and expo booth submissions.

All submissions must be submitted through the [online form](#) no later than **February 8, 2024 at 5 pm**.
More information and submission format is attached.

Registration (FREE!) for the conference and workshops is open NOW! Stay tuned for more information about workshops, field trips, student travel awards, and more!

**** Conference details are available @ <https://kachemakbayscience.org/> ****

This conference is coordinated by the following partners: Kachemak Bay National Estuarine Research Reserve, Alaska Maritime National Wildlife Refuge, Center for Alaskan Coastal Studies, NOAA Kasitsna Bay Laboratory, Seldovia Village Tribe, Alaska Department of Fish and Game, Chugach Regional Resources Commission, and the University of Alaska Fairbanks.
